Senate Healthcare Bill Puts Finishing Touches On What Glenn Grothman Started

Bill would remove coverage from 46,000 district residents, increase premiums, and funnel money to those at the very top

June 22, 2017

Madison - With today's release of the proposed Senate Republican health care legislation, business executive and non-profit leader Dan Kohl issued the following statement:

"Today's Senate bill puts the finishing touches on what Glenn Grothman and House Republicans are trying to do to the healthcare of hardworking people across the 6th District.

Glenn Grothman is putting party ahead of his constituents in voting for this devastating bill, which rips affordable healthcare coverage away from more than 40,000 of his constituents, increases premiums on Wisconsin families and imposes an age tax on older Americans.

This is a tax cut for the rich masquerading as a healthcare bill. It represents one of the largest transfers of wealth from working Americans to the few at the very top in this country's history. It's mean, it will devastate Wisconsin families, and Grothman owns every word of this destructive bill."
