Supervisor Taylor Announces Key Endorsements

Supervisor Taylor is honored to announce endorsements from those who have given over 80-years of elected public service to our community. These include Former Oak Creek Mayor, Stephen Scaffidi, Former Franklin Mayor's, Tom Taylor and Fred Klimetz, and retiring Hales Corners Village President Robert Ruesch.

"I am proud to accept these well-respected individuals' endorsements. I take their input seriously and have the utmost respect for each. I have been fortunate to work with these dedicated public servants over the past 10 years and their firsthand knowledge of the communities I represent have been invaluable."

Supervisor Taylor's opponent, Patti Logsdon, claimed to have the support of former Governor Tommy Thompson, which proved otherwise, forcing her to remove any mention. Unfortunately Leadership MKE, a Chris Abele supported PAC, continues promoting this false endorsement in their online propaganda, misleading the public. Currently, Leadership MKE has spent over \$120,000 on negative and outright false campaign materials in a desperate attempt to help elect his opponent. It is meant to distract from the fact that his opponent lacks knowledge for the position and who will be nothing more than a rubber stamp for Chris Abele and his desires to increase the wheel tax and charge residents to pay to park in their County Parks.
