

# Schroeder Campaign: Ceremonial or Restore Duties

We urge Wisconsinites to Join our Campaign: Create Efficiency in Wisconsin

The voters have spoken: they want a State Treasurer. In business, opinions are given and then the Chairman or CEO makes a decision. We as public servants must now implement the decision by the voters of Wisconsin.

I recommend an advisory statewide referendum called on November 6th asking the voters to decide:

***Shall the office of Secretary of State and State Treasurer be:***

***1. Ceremonial***

**OR**

***2. Return duties to the office***

If ceremonial passes then the next term salary should be cut 50 to 75%. If Return duties option passes, then have the legislature return useful duties to each office. Create an election watchdog with powers to the Secretary of State.

Lets transform the offices into something worthy of being kept. Doug LaFollette has been ineffective at his job. He allowed his Department to become an administrative burden while NEVER having the decency to return any of his salary as his department while duties and responsibilities were cut. These changes will never be accomplished if Doug LaFollette's 50 year reign is allowed to happen. If elected I will return the \$35,000 he has wasted from the children's book fund with his traveling the country.

It's time for new leadership that will restore confidence in the office not through elimination but through efficiency, while still maintaining its accountability to the voters of Wisconsin.
