Rep. Mursau Receives “Friend of Housing” Award

Madison ... Representative Jeff Mursau (R–Crivitz) was recently honored by the Wisconsin Builders Association with the “Friend of Housing” award. The award was presented at the State Capitol by Brad Boycks, the Executive Director of the Wisconsin Builders Association.

“I’m honored to receive this award for the important work we did this session,” said Mursau. “I’m proud to support legislation that makes housing more affordable for the hard-working people of Wisconsin.”

The award was given to legislators who work to support policies that reduce the cost of housing for Wisconsin families. The Builders Association is comprised of 4,000 members representing 21 local associations across the state.

“Owning a home is part of the American Dream,” expressed Mursau. “Research has shown there are many social benefits to home ownership, so it’s important we pass common sense laws to make the American Dream a reality for most Wisconsinites.”
