Statement regarding MADD Award

Madison –

Rep. Sinicki released this statement today:

“The [National and Wisconsin chapters of Mothers Against Drunk Driving \(MADD\)](#) have honored me this month by recognizing me, along with Senator Chris Larson, for authoring [Assembly Bill 915/Senate Bill 688](#), which required an ignition interlock device to be installed for committing a drunken driving offense.

“Despite the majority party’s refusal to advance this practical, life-saving legislation, it was the right bill to bring forward to show that there are steps we can take in this state to reduce the dangers of driving under the influence.

“I look forward to continuing to work on this issue next session and to making Wisconsin roads safer for everyone.”
