Rep. Gary Hebl Once Again Selected as Wisconsin State Lead by the National Caucus of Environmental Legislators

(MADISON) – For the second year in a row, Rep. Gary Hebl (D-Sun Prairie) is happy to announce that he has been selected by the National Caucus of Environmental Legislators (NCEL) to serve as State Lead in Wisconsin.

“It’s an honor to once again be selected as the Wisconsin State Lead by NCEL,” Hebl said. “One of my top legislative priorities is protecting and restoring Wisconsin’s environment. I believe that Wisconsin is changing directions with regards to how it views conservation issues. I hope that my position as State Lead can help us refocus on strengthening environmental protections so that future generations are able to enjoy clean air and clean water, as well as enjoy outdoor activities such as hunting, hiking, and biking.”

As State Lead, Rep. Hebl will be the main point of contact for the national group’s activities in Wisconsin, helping to plan visits as well as helping to grow NCEL by identifying potential recruits and educating other conservationists about using NCEL as a resource.

“I will continue to fiercely fight to protect Wisconsin’s natural resources, and look forward to working closely with NCEL and Governor Evers on these vital issues,” Hebl finished.
