**STATEMENT BY SHEET METAL UNION #18 PRESIDENT/  
BUSINESS MANAGER MIKE MOONEY ON STATE BUILDING COMMISSION**

Sheet Metal Statewide Local Union 18 respectfully requests the State Building Commission to approve Governor Evers' proposed Capital Budget.

Governor Evers' proposal supports our Veterans, provides necessary support to our corrections and mental health facilities, our universities, and even our state parks. It truly puts Wisconsin priorities first while promoting family supporting construction jobs.

We ask for the Building Commission to come together as it has in the past to provide bipartisan support and move this Capital Budget forward.
