#### **Capital Investment**

Please report only Significant Capital Expenditures eligible for Capital Investment Tax Credits on the Capital Investment Worksheet.

Eligible capital investments include capitalized costs and lease payments related to tangible assets such as land, buildings, and equipment which 1) are paid by the Recipient 2) directly relate to the project, and 3) are Investment Types that are unique to the capital expenditure/construction (Project) period, as defined by the award contract. Referred to as Cost or Costs below.

#### Investment Description

Provide a detail of the expenditure paid by the Recipient. Itemized detail should be provided.

#### Investment Type

Select the appropriate category from the dropdown

Land and/or Building Acquisition - Costs directly related to the acquisition of the property.

<u>Infrastructure</u> - Costs directly related to the construction of, or improvement of, the fundamental framework required for operation of the facility at the project site, such as: roads/bridges, transportation, utilities, communication systems.

<u>Permitting</u> - Federal permit Costs directly related to building construction or improvements.

<u>Building Construction/Improvements</u> - Costs directly related to the construction, rehabilitation or improvements of the building, including: labor, materials, and general contractor fees.

Building Lease - Eligible Costs are those for leases greater than 1 year & for payments made in the reporting period.

<u>Land Improvement</u> - Costs directly related to demolition, environmental cleanup, sitework, landscaping, and surveying, and parking lots and structures.

<u>Machinery & Equipment</u> - Costs directly related to and including the purchase, installation, special tooling, and/or repair (of new equipment). To include computers, computer hardware, and software used in the production or manufacturing process.

<u>Machinery & Equipment Lease</u> - Eligible Costs are those for leases greater than 1 year & for payments made in the reporting period.

Furniture & Fixtures - Includes office furniture and racking & storage systems Costs.

<u>External Legal, Design, Consultant, Engineering & Architect Fees</u> - Costs directly related to land or building acquisition or improvement.

<u>Other</u> - List items that do not clearly fit in a defined Investment Type but that you believe are eligible capital investments as defined above.

#### Date of Investment

Provide the date the Cost was paid by the Recipient.

# Investment Amount

Provide the total amount paid on the date provided.

#### Entity

Indicate which entity paid the cost, by FEIN.

## Additional Description (if necessary)

Provide additional description of the cost, if necessary, so that someone unfamiliar with the industry or product would understand.

## Ineligible items include, but are not limited to, the following:

Accrued expenses

Advertising & marketing expenses Consignment of Machinery and Equipment

Expenses not directly related to the project

Expenses related to stabilizing a property to prevent deterioration prior to the start of construction or rehabilitation Financing and interest expenses

Financing and interest expen

Insurance premiums

Intangible assets

Internal labor, when the Recipient is also eligible for jobs-related tax credits. Includes internal labor capitalized for installing equipment and machinery or customizing or developing software used in operating the equipment and machinery, or in-house legal counsel, architects, engineers, or designers.

Maintenance expenses

Operating expenses

Related party or person transactions

Research & development expenses

Software expenses not related to running equipment and machinery.

State and local permit fees
