SSDC Applauds Senators for Prioritizing Wisconsinites Over Politics

MADISON – This week, Democratic legislators unveiled a list of legislative priorities that reflect the will of the people of Wisconsin who voted for solutions to the challenges directly affecting their daily lives.

“The State Senate Democratic Committee applauds Democrats for being focused on the priorities of the people of Wisconsin who voted for bold action on increasing access to affordable health care, strengthening schools, and expanding economic security for families and seniors,” said Katie Iliff “After years of inaction from the majority party on the issues that matter the most to everyday Wisconsinites, the time is now for Republicans to end to the political games and work with Democrats to find solutions Wisconsinites expect.”

Yesterday, Senate Leader Jennifer Shilling, Senator Patty Schachtner, Senator Jeff Smith, Senator Mark Miller, and Senator LaTonya Johnson participated in press events across the state to introduce the *Forward Together* legislative agenda.
