## Speaker Vos Releases GOP Weekly Radio Address

**Madison...**Speaker Robin Vos (R-Rochester) has this week's GOP Weekly Radio Address that focuses on the actions taken by the Joint Committee on Employee Relations. On Wednesday, the committee, approved general wage adjustments for the next two years for state employees as well as other pay increases.

*"I'm Assembly Speaker Robin Vos. This week the Joint Committee on Employment Relations signed off on raises for state workers all across Wisconsin. Continuing the efforts over the past several years, under Governor Walker and Governor Evers, to reward our hard working state employees. For the next two years, all state employees, including the UW System, will see a two-percent increase in pay each year. The first raise will hit pay checks in January.*

*"The joint committee also approved larger raises for prison guards to help the state retain and recruit personnel. In addition, emergency dispatchers, youth counselors, nurses, CNAs, long-term service providers and DNA analysts will also see an extra increase in their pay.*

*"We know the labor market is tight. Thanks to smart budgeting, we can invest in the good people who run state services while also prioritizing funding education at a record level, cutting taxes and keeping health care affordable."*
