Shannon Zimmerman Supports Bipartisan Water Quality Bills

(Madison) Today, Representative Shannon Zimmerman (R-River Falls) joined a bipartisan group of legislators in supporting a package of recommendations from the Speaker’s Task Force on Water Quality. The committee brought together a diverse range of viewpoints, including academics and environmentalists, to craft the thirteen recommendations from the task force.

“The St. Croix Valley is home to some amazing water resources, including the pristine Kinnickinnic River” said Zimmerman. “I applaud the work of the members of the Speaker’s Task Force on Water Quality, who worked in a bipartisan manner to preserve the quality of Wisconsin’s groundwater for generations to come.”

All together the package would result in a \$10 million investment into Wisconsin’s water quality, including funds for research, assistance to farmers, and additional tools for mapping and public education.
