

For Wisconsin
State Senate
30th District

Press Release- For Immediate Release

05/13/2020

“Sandra Ewald announces candidacy for Wisconsin State Senate 30th District Seat”

Sandra Ewald, lifelong resident of Green Bay, WI, has formally announced her candidacy to run for the Wisconsin State Senate seat for the 30th District. Sandra is running as a Democrat.

“I am an individual of high integrity. With a strong background in leadership, finance and healthcare management, I possess the qualities necessary to be an effective leader for this district. My career experience will benefit the constituents of this district as we face the economic fall-out from the COVID-19 pandemic.

Sandra has worked in healthcare finance and operations for the last 20+ years. Most recently, she was the President for the north region of Aurora Healthcare overseeing the operations of all clinics and hospitals in northeast Wisconsin inclusive of the Green Bay, Marinette, and Manitowoc areas. Prior to that role, Sandra was the Senior Vice President of Finance for Aurora. Sandra is a Certified Public Accountant. Through her work experience, she has gained vast experience with negotiation, leadership, effective budgetary management, and achieving strategic goals.

Sandra believes strongly in community service. She currently serves on the board of Family Services of Northeast Wisconsin. In recent years she also initiated and successfully led several fundraising events that benefited the NEW Community Clinic and the Jackie Nitschke Center.

“My passions are ensuring affordable access to excellent healthcare and education for all of our citizens, preserving our precious environmental resources, and focus on building a strong economy that all hard working constituents can share in the benefit of. I am disheartened by the current extreme polarity in government. We have more in common than not, if we are truly working in the best interest of our citizens.”

Sandra looks forward to serving all residents of the 30th District and believes in a personal approach to serving those she leads.

Sincerely,

Sandra Ewald
