## **Sarah Godlewski Endorses Joe Biden for President**

*“In this election, there’s a clear choice between two visions for our country.”*

MADISON, Wis.— Today, Wisconsin State Treasurer Sarah Godlewski endorsed Vice President Joe Biden for president.

“In this election, there’s a clear choice between two visions for our country. Joe Biden has a proven track record fighting for hard-working Americans, be it affordable healthcare, retirement security or protecting our environment while Donald Trump tears us further apart, from his tax giveaways to the special interests, to his failed response to the COVID-19 pandemic, said Godlewski.

“Joe Biden has been tested before – he has what it takes to unite our country and help us recover. Throughout his life in public service, Joe’s bipartisan work didn’t leave people behind. And as the son of blue-collar parents, he’s never forgotten where he comes from. Now more than ever, Wisconsin needs a president who is going to fight for Main Street, not Wall Street.”

Elected in 2018, Treasurer Sarah Godlewski is Wisconsin’s thirty-sixth State Treasurer and serves as the state’s chief financial officer. Treasurer Godlewski’s bold vision for the office is to foster financial security and sustainability for all Wisconsinites while protecting our tax dollars. Prior to serving, she was the co-founder of a multimillion dollar socially responsible investment firm that invests in early-stage businesses. Beyond investing, Treasurer Godlewski worked at the Pentagon for almost a decade where she helped save taxpayers tens of millions of dollars and worked to create a performance-based budget for local government.
