**Rep. Neubaauer Calls on Vice President Mike Pence
to Invoke the 25th Amendment**

MADISON - Today, a group of thirty-two lawmakers in the Wisconsin State Legislature sent a letter to Vice President Mike Pence requesting that he invoke the 25th Amendment and begin the process of removing President Donald J. Trump from office in the wake of Wednesday's assault on the U.S. Capitol by armed insurrectionists. Rep. Neubaauer issued the following statement:

"Yesterday's assault on the U.S. Capitol building while the House of Representatives and the Senate counted ballots from the Electoral College was an assault on our electoral process. This insurrection was aided, abetted, and encouraged by President Trump. Trump has spent months promoting false claims and baseless conspiracy theories designed to undermine the integrity of our elections process, culminating in yesterday's attack on Congress during an active floor session.

"It is clear that President Trump is no longer fit or able to perform the duties of the presidency, and we ask that Vice President Pence step up and begin the 25th Amendment process to remove him from office.

"Should Vice President Pence refuse to act on the dire threat President Trump poses to our nation, I fully support moving forward with articles of impeachment in Congress."
