Rep. Wichgers Responds to Gov. Evers' State of the State

Madison, WI – State Representative Chuck Wichgers (R-Muskego) responded to Governor Tony Evers' State of the State address tonight with the following:

“In his remarks tonight, the governor missed the point of what both sides of the political aisle want – unity. My constituents are pleading with me to work with the governor and conversely for the governor to work with the legislature. Once again, the governor took no responsibility for the failures of his administration in managing this pandemic and he seeks to remedy the problem with only his wisdom.

“The state’s citizens share a common problem – COVID-19. We need to collaborate to open our schools now. We need to open our businesses now. We can do all of this with the collaboration of ideas from the governor and the legislature.

“While the governor’s speech showed he is out of touch with citizens’ desires from both sides of the political spectrum, I will stand with my colleagues to advocate for reopening our economy in a safe and healthy way.”
