Statement on Senate Repealing Evers' 4th Consecutive Emergency Order

“Today marks the 180th consecutive day that Governor Evers has declared an “emergency.” We have had this same “emergency” for 240 of the last 319 days. This stretches any reasonable definition of the word “emergency”.

“From the start, Governor Evers has used his declarations of “emergency” to act unilaterally, rather than attempt a bipartisan solution to help Wisconsinites through the pandemic. And we’ve seen the result of this unilateral approach. From the unemployment fiasco, to being last in the midwest in vaccine distribution, allowing Evers to act unilaterally has been a disaster. I hope that the repeal of the State of Emergency will force Evers to work with the legislature to finally help Wisconsin families.”
