Watertown, WI – Yesterday the long-awaited decision from the WI Supreme Court is finally in. Justice Hagedorn avoids recall by leading the charge to overturn Evers’s mask mandate executive order which the assembly leadership failed to do. The 4-3 decision clearly proves the liberals on the court should have run for the legislature because they continue to try to re-write law from the bench. What part of a clearly written law do they not comprehend?

Now that the court has ruled, we should see the mandate restrictions begin to relax. Municipalities will have to write their own laws to replace the tyranny the governor has had in place for over a year. Wisconsin will finally be able to breath again rather than be forced to re-breath their own exhale which is unhealthy on its own.
