## **Rep. McGuire Statement on Signing of State Budget**

MADISON – The following is a statement from State Representative Tip McGuire on the signing of the Wisconsin state budget:

“At a time when Wisconsin has both significant needs and the resources to address them, it is our duty to have a state budget that funds those priorities. While Republicans neglected to make many of the critical investments that our state needs, Gov. Evers improved on the budget that was sent to his desk, directing an additional \$100 million towards K-12 education. Gov. Evers also vetoed several provisions and preserved fiscal flexibility for the Legislature to come back and address the issues that Republicans ignored.”
